Preface

Upside down or in full flight, Midnight is a fangtastic plush for night company. It's perfect for Halloween and creatures of the Night. It remains only to choose the face and the ear flaps to personalize it to the taste of its future Master.

The difficulties of this plush are the assembly of the Wings to the body and the sewing of the angle between the head and the body. Pinning and taking your time are the assets to succeed without taking your blood away.

Necessary skills:

- fuse interfacing
- sew corners and rounding
- sew a dart
- topstitching
- sew a zigzag stitch or (satin stitch)
- make an invisible stitch by hand

Sew for children

For the safety of sewing toys, each seam must be started and ended with a stopping point. Appliques need to be topstitched with a zigzag stitch. The invisible stitches require the use of an extra strong thread.

O'Kryn Plush is not responsible for the use of toys made from this model. Please check that your creation is secure and suitable for the child for whom it is intended. Regular inspection is recommended to verify its integrity.

Print

Open the file in suitable software: Adobe Reader (free) is your friend.

This pattern is intended to be printed on **A4 paper**.

For the print size, choose «**actual size**» or «**100%**».

Please, verify the dimensions of the test square before printing. If necessary, recalibrate the printer.

Important

The **1cm or 3/8 in seam allowance** (unless otherwise stated) is included in the pattern. Each seam must be **started and ended** with a back stitch to secure the seam. The different parts will be designated by their name with a capital letter.

This information won't be specified again during the assembly instructions.

Midnight, from left to right, terry cloth, fake fur/
canvas and minky/felt.
